

ported. There is nothing further to report from the battle front.

Lincolnshire troops raided the enemy's trenches northeast of Loos yesterday morning and captured thirty prisoners and a machine gun. Another successful raid, in which we captured a few men, was carried out by us last night northeast of Poelcapelle.

**FRENCH (DAY)**—There was no infantry action to-day. Quite violent artillery fighting continued maintained in the region north of Montdidier, especially between Demuin and Hangard-en-Santerre. It was quiet everywhere else.

**FRENCH (NIGHT)**—On the front between the Somme and the Oise there was increasing activity on the part of the artillery on both sides. South of Moreuil the enemy made a spirited attack against the French positions between Moriel and Mailly-Rameval. It was repulsed by the French fire, and the enemy was forced to give up a footing in the French defences, except at a single point.

A German effort north of Roilet was broken up by the French fire. Last night the French carried out a local operation on the slopes north of Picomont, in the course of which our troops enlarged their position, captured a machine gun and took sixty prisoners. There is nothing to report from the remainder of the front.

On March 31 and April 1 French aerial squadrons threw 12,000 kilograms (more than thirteen tons) of projectiles on railways and cantonments at Hazebrouck, Cambrai and attacked with machine guns from a low elevation.

French pursuit planes were engaged in many fights, in the course of which eight German airplanes were brought down. Two others were put out of action.

**GERMAN (DAY)**—The artillery engagement near and south of Lens was more lively at times. On the battle front the fighting activity throughout the whole of the day was restricted to artillery firing and reconnoitering engagements.

A thrust during the night by English companies against Ayelette was repulsed by the French fire. During the evening the enemy attacked with strong forces between Marcel cave and the Luce River. He was driven back with heavy losses and a surprise attack we gained possession of the heights southwest of Moreuil.

The destruction of Laon by the French artillery was complete.

Before Verdun and in the central Vosges the artillery activity has been revived. Southwest of Hiesbach a successful thrust resulted in prisoners being brought in.

Cavalry Capt. Baron von Richthofen won his seventy-fifth aerial victory.

**ITALIAN AIRMEN AID.**

Caproni Machines Being Used on Front in Picardy.

**Special Cable Dispatch to The Sun.**

PARIS, April 3.—For the first time the French official statement announces the presence of Italian aviators on the French front. It is believed here that they are cooperating with the French in bombing expeditions.

The machines employed are Capronis, which are much superior to Gothas for such work.

**BIG JOB, SAYS KAISER.**

He Asks Austrian Emperor for Close Union to Solve It.

AMSTERDAM, April 3.—Emperor William on telegraphing his thanks to Emperor Charles of Austria for conference decorations on German Generals at the conclusion of the great struggle in the East is quoted in a Vienna despatch as saying:

"I thank you that at this moment you emphasized anew the necessity of close union for the purpose of solving the great task we have."

Emperor Charles replied as follows:

"The extraordinary successes of the armies which have been advancing under your command must have filled you with special satisfaction. May everything which still is to come be accomplished in the limit of God's blessing and a speedy, honorable peace be granted."

**TAMMERFORS IS BOMBARDED.**

Swedish Detachment Fighting With Finnish White Guard.

**By The Associated Press.**

STOCKHOLM, April 3.—White Guards are bombarding Tammerfors, Finland, and many buildings are on fire.

The Finnish Press Bureau reports that Russian reinforcements have reached Finland, including the celebrated Finnish Guards. The Finnish Guards have taken up a position on the Karelian front.

A Swedish detachment fighting with the White Guards thus far has killed and wounded twenty-nine and the total of 341 men.

**WOULD SEIZE PACKING HOUSES.**

Senator Thompson Offers Resolution for U. S. Control.

WASHINGTON, April 3.—A resolution providing for the taking over and operation by the government of packing houses was introduced today by Senator Thompson (Kansas) and referred to the Agriculture Committee.

Senator Thompson charged that "monopolistic control" by the packers has greatly increased the cost of foodstuffs to the army and navy, as well as to the people. He said the Food Administration's limit of 10 per cent. profits to 9 to 15 per cent. gives them too much.

**CAPT. LA GUARDIA IN PARIS.**

Aviator Fully Recovered From His Accident in Italy.

PARIS, April 3.—Capt. Florentino La Guardia of the American Flying Corps, who was injured recently in an aerial accident in Italy, is spending a few days in Paris. Capt. La Guardia, who is a representative in Congress from New York city, had recovered completely from his injury and is following the work of Italian aviators on the French front with the utmost interest.

Caproni airplanes bombed an airplane at Metz on the night of March 17 and again on March 23. Italian squadrons also bombed the railway station at Thionville on the night of March 24 and succeeded in hitting a train filled with reserve troops going to the Picardy front.

**TAFI WOULD SHOOT SPIES.**

But Not Until They Had Been Convicted by Court-Martial.

MEMPHIS, Tenn., April 3.—"Spies should be court-martialed, tried, and their citizenship ended by bullets," those who express treasonable sentiments should be tried and punished, but in no case law should be obeyed and no violence such as practiced in certain parts of the United States should be everywhere condemned, that the United States may not sink to the lawless savagery of the Germans."

This assertion was made here today by former President Taft in an address before the Chamber of Commerce.

## GERMANS CENTRE ON ROAD TO AMIENS

Greatest Concentration of New Divisions Is South of the Somme.

### CLASHES NEAR ALBERT

Brilliant Raid by New Zealanders Results in Capture of 110 Machine Guns.

By PERRY ROBINSON.

Special Cable Dispatch to The Sun from the London Times.

Copyright, 1918, all rights reserved.

BRITISH HEADQUARTERS IN FRANCE, April 2 (Delayed).—The days go by without any large events. Great tension there is of course everywhere, and local fighting at many points, but no operations on a considerable scale. It is south of the Somme that the enemy at present shows most signs of aggressiveness; there has been putting in more new divisions and there is much movement on the roads that run in the direction of Amiens.

He has been shelling heavily in the region of Villers-Bretonneux. From this point southward to the Luce river small bodies of his troops constantly are feeling our front and endeavoring to push forward. The Germans have gained no ground except in one place near Hangard. Here a smart counter attack on our part, where the enemy was trying to infiltrate through a wood, resulted in some prisoners and thirty machine guns taken by us.

On both sides of Albert several minor encounters have taken place, where the Germans are trying to find a weak spot in our positions. Each attack has been repulsed and we nowhere retired. In the region of Arras the enemy has contented himself with a general shelling, which is especially heavy on the battle of Arras itself. By means of this he is getting his guns forward all along the line, but not as fast as he expected.

**Daring Raid by New Zealanders.**

The enormous use the Germans are making of machine guns in this battle is illustrated in a successful counter attack by New Zealanders at La Clerie Farm, between Hiesbach and Auchonvillers. The New Zealanders were not satisfied with the positions they occupied and decided to improve them by routing the Germans out about a thousand yards from the road in front of them. So they went over at 2 o'clock in the afternoon after a short field gun barrage.

At this time the New Zealanders had almost all the section of the road that they wanted and had taken 200 prisoners and 110 machine guns. Even a German report that some of the Germans escaped the number of machine guns is excessive for the 500 or 600 men in the section. As the prisoners reported four divisions it may be inferred that the Germans were planning a coup at this point and had all things ready for an advance. By means of this machine gun detachment to make way for the advance, which probably were coming behind.

The New Zealanders captured yesterday more prisoners. As the prisoners reported four divisions it may be inferred that the Germans were planning a coup at this point and had all things ready for an advance. By means of this machine gun detachment to make way for the advance, which probably were coming behind.

## Offensive in Italy Believed to Be Off

Special Cable Dispatch to The Sun. Copyright, 1918, all rights reserved.

ROME, April 3.—The expected Austrian offensive on the Italian front, according to information received here, probably has been postponed because, owing to the failure of the German offensive in France, the Austrian reserves must be held in readiness for the forthcoming counter offensive there.

Sliter troops had through the pattern, who were out despite the bombardment. It was 11:40 o'clock when troops on the right reported that the Germans already were through the wire and the redoubts and forward positions were isolated.
